

 1.00 ac | 44,400 sq. ft

This lovely piece of land located in the south-west has a spectacular view of Cades Reef, Montserrat, St. Kitts and Nevis. A beautiful stone wall borders the entry way and the remainder of the lot is completely fenced. The land gently slopes upward creating a perfect spot for building a hill top home.

At the entrance of the property, a road has already been built and runs to the top of the hill. Electricity, water, telephone and cable are readily available.
