Overlooking Freeman's Bay, Blue Moon Villas offer breathtaking views of the Caribbean Sea and Montserrat Island. The cottages are tastefully furnished, creating a peaceful and serene atmosphere. With open-plan living and dining areas, integrated kitchenettes, and spacious bedrooms opening onto the verandah, the villas provide a perfect setting to relax and unwind. A short stroll down the hill leads guests to the nearby beach, while a shared four-person Jacuzzi with adjustable water temperature offers a soothing oasis. The villas can accommodate additional guests, as each villa has a comfy air mattress available for two more persons. Alternatively, for larger groups, the master bedroom of the Main House can be rented separately, with its private entrance and garden shower. Enjoy a tranquil and sustainable getaway at Blue Moon Villas, where natural beauty and modern comforts harmoniously coexist.

Powered entirely by solar energy, the villas have a backup generator to ensure uninterrupted electricity supply. The voltage is set at 110 volts, providing convenience for guests from various regions. The villas are equipped with well-appointed kitchens, complete with a gas

cooktop, microwave, mini fridge with a freezer, coffee maker, blender, and toaster. Additionally, a full-size refrigerator/freezer is available in the common area, which is shared by the two villas. The water supply at Blue Moon Villas is sourced from rainwater, which is chlorinated and triple-filtered before reaching the villas, making the entire water supply suitable for consumption. Propane "on demand" water heaters provide hot water for added comfort. Guests can stay connected and entertained with cable TV and complimentary WiFi throughout the villas. A BBQ grill is situated in an open air room near the Jacuzzi in the common area, perfect for enjoying outdoor cooking and dining. For those seeking relaxation and rejuvenation, an open-air exercise room with an expansive mirror is available on the ground floor of the main house, equipped with yoga mats. Snorkel and fin gear can be found in the adjacent room, allowing guests to explore the underwater wonders of the surrounding area. The villas feature high ceilings and a vented cupola for optimal ventilation. Ceiling fans are installed in the kitchen, living room, and bedroom, complemented by a tower fan in the bedroom. To ensure a peaceful and uninterrupted night's sleep, the entire villa is screened, and a mosquito net is provided over the king-size bed.
