A beautiful and modern property sits directly on Pigeon Beach, one of the finest on the island, and offers fabulous views across Falmouth Harbour.

The main house contains four spacious en-suite bedrooms, decorated with splashes of cool Caribbean colour. All have air conditioning and silent ceiling fans, some have freestanding tubs with views of the ocean. It has been carefully designed to catch the cooling trade winds, with all rooms opening onto shady covered walkways and a splendid internal garden.

Outside, mature tropical gardens create a feeling of peace and privacy and the house has its own private dock.
