Buckleys Heights is a new residential development of luxury 1 to 2 bedroom apartments alongside many houses that bring Caribbean style and UK expectations to one of Antigua's most prestigious locations. Buckleys Heights not only offers panoramic views that encapsulate the scenic Caribbean Sea but is perfectly situated for easy access to the island's main attractions and facilities (ten minutes by car to the nearest of numerous idyllic beaches, the capital St. Johns, Shirley Heights, Nelson's Dockyard and English Harbour). The Buckley Heights development is a gated community that ensures your exclusivity and security. The gardens are also expertly landscaped and maintained with water being automatically and ecologically applied all year round.
