Forest View House, located at 3 Forest View Lane, Swetes is offered at US\$157,000 and presents a unique opportunity to own a project-style home that carries a personal touch. Hand-crafted by the current owner, the residence offers two bedrooms and one-and-a-half bathrooms, set on approximately 6,000 square feet of fully fenced land.

The structure is a wooden building elevated on solid concrete pillars, combining durability with traditional Caribbean character. The property includes a work shed that can be adapted for multiple uses, adding extra functionality for storage, hobbies, or home projects.

The yard is largely paved with stone for low-maintenance living, accented by a few trees that provide shade and a natural element to the space.
